Software List

Last Update: Wednesday, June 25, 2025

These are software for I.T. professionals, and it is essential must have it; Remove clutter or junk software. These software tested and mainly open source, and sponsored by large corporations for collaboration, However sad news iMac Pro is kicked out for various reason, Yes I know alternative programs for iMac Pro but spending zillions hours iMac is not favorite for developer.

△ Before you best software add in list

- It must be stable version and tested for many years
- Preferred open source and update available

① Optional software

✓ Must have for I.T. Professional

✓ I personally used in my computer

📦 UniGetUI (formerly WingetUI)
